

Important Notice About Email Scams

Please be aware that fraudulent e-mails have circulated recently claiming to be from a Giving Pledge representative and promising money for the e-mail's recipients. These e-mails are in no way affiliated with the Giving Pledge and should not be regarded as such. The Giving Pledge makes every effort to stop such scams, but unfortunately, a number of them still get through. The Giving Pledge is not a grant-making organization and does not distribute money directly to organizations or individuals. Each person or family who takes the Giving Pledge makes an individual decision about the causes and charitable organizations they wish to support.
